DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Waldron et al.

Waldron et al. teaches a polishing fixture comprising a plurality of segments, (fig. 2), holding a plurality of different types of fiber optic cable connectors, 138, (col. 5, lines 29-40), a portion of each different type of fiber optic connector extending below its corresponding segment, a hub, 104 interconnecting with the segments, and a polishing pad, 146 which polishes the portion of the fiber optic cable connector extending below its segment.

Allowable Subject Matter

3. Claims 4-7, and 9 are, objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 10-26 are allowed.

Art Unit: 3723

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Doyle, Goris et al. and Stillie et al. were cited to show other examples of polishing fixtures.
